

The Effect of True Crime Docuseries on Romance Fraud Reporting to the Police

- *Supplementary Materials* -

Table S1 Negative Binomial regression models estimating the combined effect of TV portrayals of romance fraud on reported cases of romance fraud (Model 1), news articles on romance fraud (Model 2), and Google searches of romance fraud-related terms (Model 3). Standardized coefficients are reported.

<i>Predictors</i>	Model 1 - Reported romance fraud			Model 2 - News articles			Model 3 - Google searches
